Symptoms of Swine flu

Swine flu symptoms

Symptoms of the swine flu are very similar to those of seasonal influenza. If you feel ill, stay home from work and school because an infected person can shed the virus 24 hours before symptoms start, and up to seven days later. If you exhibit symptoms and believe you may have swine flu, call your physician before making a trip to see him or her, then follow advice on how to proceed.

If you think you have the flu,
tell your supervisor and stay home,
except to get medical care.
